## EDUCATION

---

### VIT-AP University

2022 – 2026

*B.Tech, Computer Science & Engineering (CGPA: 7.54/10)*

## TECHNICAL SKILLS

---

**Programming Languages:** Python, SQL, JavaScript

**AI & Machine Learning:** Scikit-learn, TensorFlow, PyTorch, XGBoost, CNN, RNN, LSTM

**Generative AI & LLMs:** LLMs, Prompt Engineering, LangChain, LangGraph, RAG, Hugging Face Transformers, OpenAI API

**AI Agents:** AI Agent Development, Agentic Workflows, Tool Calling, Function Calling, Agent Orchestration, Memory & State Management, Multi-Agent Systems

**Computer Vision:** OpenCV, YOLOv3/YOLOv8, Image Classification, Object Detection

**Natural Language Processing:** NLTK, spaCy, Text Classification, Sentiment Analysis

**Backend:** FastAPI, REST APIs, API Integration

**Databases:** MySQL, PostgreSQL

**Cloud & MLOps:** Git, GitHub, Docker, Linux, CI/CD, AWS, Render, Vercel

**Tools:** Jupyter Notebook, Google Colab, VS Code

## EXPERIENCE

---

### Python Full Stack Development Intern

July 2026 – Present

*TAP Academy*

*Bengaluru, India*

- Developing web applications using **Python, Django, HTML, CSS, JavaScript, and SQL**.
- Implementing **CRUD operations, Django models, views, templates, and database connectivity**.
- Building and integrating frontend and backend components for full-stack applications.
- Using **Git and GitHub** for version control and project development.

## PROJECTS

---

### AI-Powered E-Commerce Agent | *Python, FastAPI, React, LLM, AI Agents, REST APIs*

- Developed an AI-powered e-commerce agent that understands user intent and assists with product discovery, recommendations, and purchase-related queries.
- Implemented an LLM-based agent workflow with tool calling to interact with product search, inventory, pricing, and recommendation services.
- Maintained conversation state and contextual user preferences to support personalized multi-turn interactions.
- Integrated the agent with a React frontend and FastAPI backend to deliver real-time conversational shopping assistance.

### AI-Powered Event Recommendation System | *Python, FastAPI, Scikit-learn, NLP, React, LLM*

- Designed an intelligent recommendation system using machine learning, NLP, and user behavior analytics to deliver personalized event recommendations.
- Implemented sentiment analysis using TF-IDF and Logistic Regression to analyze user feedback and improve recommendations.
- Integrated an LLM-powered chatbot to provide personalized event assistance and conversational recommendations.
- Developed FastAPI REST APIs and integrated them with a React frontend for real-time recommendations and chatbot interactions.

### Food Quality Detection using Deep Learning | *Python, React, FastAPI, YOLOv3, TensorFlow*

- Developed an AI-powered web application for food freshness detection using YOLOv3 and CNN models trained on 2,000+ food images.
- Built FastAPI REST APIs to serve real-time predictions and integrated them with a responsive React frontend.
- Optimized image preprocessing and inference pipeline to improve prediction speed and deployment efficiency.

### Chronic Kidney Disease Prediction System | *Python, TensorFlow, FastAPI, MongoDB*

- Developed a deep learning-based healthcare application using RNN, LSTM, and GRU models for CKD prediction.
- Built a preprocessing pipeline for missing-value handling, feature engineering, and normalization.
- Evaluated models using Accuracy, Precision, Recall, F1-score, and ROC-AUC metrics.
- Integrated the trained model with a FastAPI backend and interactive dashboard for real-time predictions.

## LEADERSHIP & EXPERIENCE

---

### **Design Team Lead**

2025

*Dhruva Club, VIT-AP University*

- Led a cross-functional design team delivering branding and promotional campaigns for club events, coordinating with multiple stakeholders to maintain a consistent visual identity under tight timelines.

### **Technical Team Member**

*Computer Society of India (CSI), VIT-AP*

- Supported organization of technical workshops and coding events, coordinating logistics and technical execution with a student team.

## CERTIFICATIONS

---

- Oracle Cloud Infrastructure (OCI) 2025 – Certified DevOps Professional
- Oracle Cloud Infrastructure (OCI) 2025 – Certified Foundations Associate
- E-Cell IIT Roorkee – Android Development
- VIT-AP SCOPE – 5-Day DevOps Workshop
